Teresa Hall

Loyal Public Library

Loyal WI 54466

Hi Teresa,

Want to let you know how much I enjoy my Computer Skills for Workplace I am taking with Gale University through the Wisconsin Valley Library Services and the Loyal library. I have always wanted to sharpen up on my skills and this course gave me the perfect opportunity. I love that it is on line and I can sign-on any time that fits my schedule. The questions and answers interactive discussion is very interesting. A lot of the questions I wanted to ask was already addressed by another student and all the students could share in the answer. This is the perfect opportunity for anyone to sharpen up on a skill or learn a new skill. Your array of courses is very broad, and anyone could find something they are interested in. My next course I am signed up for is Get Assertive. Really looking forward to sharpening my people skills.

I am very proud of Loyal and appreciate the opportunities the library gives the citizens of Loyal. I would be very disappointed if this opportunity ever got dropped.

Regards,

Barb Lucht
