Disability Impacts ALL of US

61 million adults in the United States live with a disability.

26% of adults in the United States have some type of disability (1 in 4).

Percentage of adults with functional disability types:
- Mobility: 13.7%
- Cognition: 10.8%
- Independent Living: 6.8%
- Hearing: 5.9%
- Vision: 4.6%
- Self-Care: 3.7%

The percentage of people living with disabilities is highest in the South.
The Americans with Disabilities Act (ADA) prohibits discrimination on the basis of disability in employment (Title I), state and local governments (Title II), and places of public accommodation and commercial facilities (Title III).

ADA was enacted by U.S. Congress in 1990 and amended in 2009 (referred to as ADA, 2010 Standards).

Note: Public entities under Title II with 50 or more employees is required to designate at least one responsible employee to coordinate.
New Construction and Alterations

On or after March 15, 2012, all newly constructed or altered facilities must comply with all of the requirements in the 2010 Standards.

If elements in existing facilities already comply with corresponding elements in the 1991 Standards and are not being altered, then entities are not required to make changes to those elements to bring them into compliance with the 2010 Standards.

Grandfather Clause

There is no "grandfather" clause in the ADA. However, the law is flexible. City governments must comply with Title II of the ADA, and must provide program access for people with disabilities to the whole range of city services and programs.

A ramp was installed to provide access to the city activities conducted in this facility.
$41 Million Hunter’s Point Library Is Not Accessible

What do you observe?

The Hunter’s Point Library has an elevator, but it does not stop at three fiction sublevels.

10/4/2019: A Queens Public Library official announced that the books in the three fiction levels would be relocated to another place inside the library.
Brainstorming

What does library accessibility mean to you? Break into small groups and discuss.
Accessibility Surveys

Bridges Library System worked with Centers for Independent Living to identify barriers in the libraries.

IndependenceFirst and Society’s Assets, Inc. conducted the accessibility surveys.

ADA Checklist for Existing Facilities checklist from the New England ADA Center was used (link in Resources).
