Subject: Petition from Marathon County Citizens

Good Morning,

My name is Laurie Ollhoff, and I reside in District 7 of Marathon County.

Attached is a petition with names of over 600 Marathon County residents who reject the MCPL Library System Task Force recommendation to withdraw MCPL membership in the Wisconsin Valley Library Service.

As Marathon County taxpayers, we demand the MCPL Board suspend this investigation on system membership, and focus on:

- Clearly identifying the problems and reasons for the proposed system membership change.
- Performing a fact-based analysis of Marathon County library service.
- Addressing how the loss of current system services, jobs at MCPL and WVLS, and \$375,000 in state and federal aid, that would follow Marathon County as subtracted WVLS expenditures from the regional economy and transferred to SCLS based in Dane County, will impact Marathon County.
- Proving that withdrawal from the Wisconsin Valley Library Service is the only possible solution to any existing service problems affecting Marathon County residents that MCPL administration has yet to define.

People who have permitted their names to be on this petition are from all walks of life and from all corners of Marathon County. Along with Marathon County taxpayers, names included represent current and former municipal and county leaders, current and former school and academic librarians, business leaders, and former MCPL staff.

The MCPL Task Force did not address the questions and concerns raised, and facts shared, by local and area library leadership during its process. On behalf of the people who signed this petition, now is the time to do so.

This decision impacts all of us.

I request that this petition be kept with the minutes of this meeting as permanent public record.

Sincerely,

Laurie Ollhoff

Re: MCPL Library System Task Force Recommendation

As resident-taxpayers of Marathon County *we reject* the Marathon County Public Library System Task Force recommendation to withdraw MCPL membership in the Wisconsin Valley Library Service and view its reasons for doing so as unsubstantiated rhetoric.

As resident-taxpayers of Marathon County *we demand* the MCPL Board suspend its investigation on system membership.

As resident-taxpayers of Marathon County *we demand* the MCPL Board first clearly identify the problem. Who proposed this change and why? Who does it benefit?

As resident-taxpayers of Marathon County *we demand* input into a genuine transparent process that reflects the magnitude of potential consequences of the decision by being built upon customer needs assessment data and independent cost benefit analysis.

As resident-taxpayers of Marathon County *we demand* the MCPL Board do a rigorous, fact-based analysis of county library service that includes use patterns by residents of rural communities as well as the City of Wausau.

As resident-taxpayers of Marathon County *we demand* the MCPL Board use this research to develop an independent, library focused strategic planning process that incorporates measurable goals for success and accommodates economic challenges Marathon County will experience in 2022-2023.

As resident-taxpayers of Marathon County *we demand* the MCPL Board undergo a 3-5 year economic impact study that addresses how the loss of current system services, jobs at MCPL and WVLS, and \$375,000 in state and federal aid will impact Marathon County.

As resident-taxpayers of Marathon County *we demand* proof that withdrawal from the Wisconsin Valley Library Service is the only possible solution to existing service problems that MCPL administration has yet to define.
