4) Action Needed: WISER Survey

The Wisconsin PSC is working hard to deploy broadband throughout the state. They are asking all residents, business owners, and property owners to participate in a statewide survey about internet cost, quality, and availability. There is a push to gather this data before Friday, July 14 but the form will remain available beyond that date for ongoing data collection and analysis. Every response will provide the PSC with more information on how to develop a broadband plan to meet the connectivity needs of all Wisconsin residents.

Please encourage families in your school district and library patrons to <u>take the survey online</u> or via phone at 608-261-6026 (if internet is unavailable OR if only cellular access is available). The DPI E-rate and Broadband Team appreciates your assistance.
